Journal of Petroleum Science and Engineering, 3 (1990) 365–366
Elsevier Science Publishers B.V., Amsterdam — Printed in The Netherlands

CONTENTS VOLUME 3, 1989

VOL. 3 NOS. 1,2 *OCTOBER 1989*

Special Issue: Hydrocarbon recovery and related topics
Editors: E.C. Donaldson and F. Civan

Dedication 1

Part I. Fluid flow phenomena
Hydrocarbon recovery and related topics. Introduction
E.C. Donaldson and F. Civan (Norman, Okla., U.S.A.) 3
Well cycling for efficient water flooding
A.R. Kukreti, F. Civan and Y. Rajapaksa (Norman, Okla., U.S.A.) 7
Measurement and correlation of non-darcy flow coefficient in consolidated porous media
M. Tiss and R.D. Evans (Norman, Okla., U.S.A.) 19
A method of measuring dispersivity and its use in slug size estimation in a miscible flooding process
D.E. Menzie, S. Dutta, R. Shadizadeh and N. Malik (Norman, Okla., U.S.A.) 35
Effect of dispersion on miscible flow in heterogeneous porous media
G.M. Iqbal and D. Tiab (Norman, Okla., U.S.A.) 47

Part II. Formation damage
Alteration of permeability by fine particle processes
F. Civan, R.M. Knapp and H.A. Ohen (Norman, Okla., U.S.A.) 65
Shear stress of migrating fines in porous media
D. Tiab (Norman, Okla., U.S.A.), S.K. Sengupta (New Delhi, India), A. Heyatdavoudi, J.L. LeBlanc, E.K. Schluntz and S.K. Kalra (Lafayette, La., U.S.A.) 81

Part III. Chemically enhanced waterflooding
Effects of the main parameters of the chemical flooding process
Yuan Shiyi and N. Van Quy (Reuil Malmaison, France) 85
The mechanism of adsorption and a new method to reduce surfactant loss in chemical flooding
Cheng-Zhi Yang, Wen-Luo Jao and Yan-Hua Huang (Beijing, People's Republic of China) 97
Alkaline preflush in a low-permeability clayey sandstone
J. Labrid and B. Bazin (Reuil Malmaison, France) 111
Flow of emulsions in porous media and potential for enhanced oil recovery
S. Thomas and S.M. Farouq Ali (Edmonton, Alta., Canada) 121
Simulation of alkaline flooding using fractional flow theory
M.S. Ahmed and F.C. Arnold (Norman, Okla., U.S.A.) 137

Part IV. Thermal recovery
Recovery of bitumen from oil sand by steam with chemicals
T. Yamazaki, N. Matsuzawa, O. Abdelkarim and Y. Ono (Tokyo, Japan) 147
In-situ combustion simulation using TGA/DTG experimental curves
S. Saim and S. Vossoughi (Lawrence, Kans., U.S.A.) 161
A physical model for two-phase flow in steam injection wells
F.C. Arnold (Norman, Okla., U.S.A.) 173
Surfactant effects on the two-phase flow of steam/water and nitrogen/water through permeable media
J.M. Sanchez and R.S. Schechter (Austin, Tex., U.S.A.) 185

VOL. 3 NO. 3 *NOVEMBER 1989*

Prediction of tectonically-caused overpressures by using resistivity and density measurements of associated shales
W.H. Fertl (Houston, Tex., U.S.A.) and G.V. Chilingarian (Los Angeles, Calif., U.S.A.) 203
Fluid displacement efficiency of in-situ foam: A mechanism of foam propagation in porous media
O.S. Owete and D.O. Shah (Gainesville, Fla., U.S.A.) 209
Thermal conductivity of fluid-saturated rocks
R.W. Zimmerman (Berkeley, Calif., U.S.A.) 219
Application of boundary element method to reservoir engineering problems
J. Kikani and R. Horne (Stanford, Calif., U.S.A.) 229
Micellar/polymer waterflooding processes: An identification approach
S. Beghelli, G. Gottardi, R.P. Guidorzi and U. Soverini (Bologna, Italy) 243
Cement slurry system for controlling external casing corrosion opposite fractured and vugular formations saturated with corrosive water
S.S. Rahman (Dhahran, Saudi Arabia) 255
A general model for convection–dispersion–dynamic adsorption in porous media with stagnant volume
M.S. Bidner and V.C. Vampa (Buenos Aires, Argentina) 267

Book review
Corrosion and Water Technology for Petroleum Producers, by L.W. Jones — G.V. Chilingarian 283

Announcements 285

VOL. 3 NO. 4 *JANUARY 1990*

Reliability and applicability of DSTs and bottomhole pressure measurements in Texas Gulf Coast Tertiary formations
M.S. Akhter and C.W. Kreitler (Austin, Tex., U.S.A.) 287
Shale water as a pressure support mechanism in gas reservoirs having abnormal formation pressure
A.T. Bourgoyne, Jr. (Baton Rouge, La., U.S.A.) 305
Type and distribution modes of clay minerals from well logging data
W.H. Fertl (Houston, Tex., U.S.A.) and G.V. Chilingarian (Los Angeles, Calif., U.S.A.) 321
Stability criteria for the design of graded polymer buffers
L. Prouvost and M. Quitard (Talence, France) 333
Hybrid grid black oil reservoir simulator
G. Gottardi and L. Vignati (Bologna, Italy) 345

Book Review
Introduction to Petroleum Reservoir Analysis and Laboratory Workbook, by L.F. Koederitz, A.H. Harvey and M.M. Honarpour - G.V. Chilingarian 361
